Portfolio

Summary

Artificial Intelligence and Machine Learning undergraduate with strong skills in Python, deep learning, computer vision, and backend development. Experienced in building real-time AI systems, image processing solutions, and full-stack applications. Seeking an entry-level software role.

Skills

- **Programming:** Python, Java, C Language, JavaScript
- **Frameworks & Libraries:** PyTorch, TensorFlow, OpenCV, Node.js
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Android Studio, MS Office
- **Concepts:** Machine Learning, Deep Learning, DBMS, OOPS, SDLC, Computer Vision

Projects

Document Image Enhancement using Deep Learning

Aug 2025 – Nov 2025

Python, PyTorch, Computer Vision

- Built deep learning models for document shadow removal and illumination correction.
- Applied image processing techniques to improve clarity of camera-captured documents.
- Enhanced readability for scanned images using neural network-based enhancement methods.

Cyber Ransomware Simulation Lab

Dec 2024

Python, Fernet, psutil, watchdog

- Developed a safe ransomware simulation to demonstrate encryption and file security concepts.
- Implemented real-time process monitoring and automated threat detection.
- Used behavioral analysis to identify suspicious processes and mitigate risks.

Face Recognition GUI System

May 2025 – Jun 2025

Python, OpenCV, Tkinter

- Developed a real-time face recognition system using computer vision algorithms.
- Implemented face detection, encoding, and identity matching for authentication.
- Designed an interactive GUI for multi-user recognition and monitoring.

Experience

Technical Recruitment and Sourcing Associate Intern

Triopath Careers Pvt. Ltd.

Hyderabad, India

Mar 2026 – Present

- Sourced and managed 50+ job profiles for clients using AI-powered recruitment and automation tools.
- Delivered 5+ client web projects and managed technical operations, including login/logout tracking, workflow monitoring, and issue resolution for daily Technical activities.

Certifications

- Python Programming – HackerRank – May 2023
- AI and Machine Learning – IBM via edX – Jun 2024
- Cybersecurity Fundamentals – Cyberfrat – Dec 2025

Positions of Responsibility

- Operations Lead – Google Developer Groups On Campus – 2025
- Event Coordinator – Build With AI (Google Developer Groups) – 2024–2025

Education

B.Tech in Artificial Intelligence and Machine Learning
Pace Institute of Technology and Sciences, Valluru

2022 – Present
CGPA: 8.05
